THE RESOLUTIONS OF INQUIRE.—The members of the State Administration and a few of their unscrupulous backers smong the press, are trying to make the public believe that the various reclutions of inquiry, adopted by the Assembly, are all prompted by partizan malico, and solely for political effect. To this the Madison Patriot, democratio paper, well replies ;

We take image on this and deny it in toto-appealing directly to the vote had on every res appealing directly to the vote had on every reso-intion of inquiry that has passed either branch of the legislature. Out of all the number of Dem-orrats, and good democrats, too, in the Assem-bly, scarcely a disseming vote has been had on the resolutions. Both men were spilled out, and their heads and faces badly cut; the sled was "decomposed," and the horses pursued their way some distance down East Water Street, when they too were stopped. One of the horses attached to the woodsled was somewhat hurt, and the owner went to the Police Office to seek redress.

Casp-Aways, -- Several loaded teams were hopelessly wrecked, yesterday, in attempting to cross some of the "cornoration canala" at the intersection of East Water and various cross streets, In clearing away the superfluous abow at these nomings, the laborers employed have made the leacent rather too steep for heavily laden sleds and drays.

CHANGE OF WEATERS.-The thaw of Tuesday ame to a full stop about dark; the wind shiftng to the North, and bringing with it an instalment of snow, alest and hail. States, perhaps in the world. We took occasion, last Sammer, in noticing the "improvements of New York city and the enterprise of its merchants." to give a description of the above magnificent establishment, and then predicted its success. As was to be expected,an establishment so extensive in all its appointments and with facilities to ap. propriate all the advantage of the markets and of the labor, so as to be able to undersell amail competitors-would draw upon itself the enmits of the "slow ones." Hence, the late reports of its failure. But these reports, we are pleased to state, are just the reverse of the fact, for never was a great enterprize more completely encessful. No one could fail, who had at all studied the trade of metropolis of this continent, to peror ive that these mammoth establishmenia. as Syswant's and Davits's-wielded with all the science of capital and mind, would eventually direct the course of trade. The fact that, the amali per centage upon their vast sales, which makes so large a return to them, would not pay the expenses of smaller houses, tells the story Our merchants can, however, make these calculations for themselves. It is merely our duty, as iournalists to note the facts, and keep our readers "posted no" on the great commercial movements.

Cuttonen's Fancy Batt .- A very attractive entertainment was given at the "Walker House," Tuesday evening, by the young daughters of the worthy laudlord, Mr. Berros, to the little people of their acquaintance in the city. There must have been some sixty, or seventy of these juvenile masqueraders, dressed in various costumes, but all in excellent taste, and sustaining their respective characters with a grace and self-possession that would have done credit " to children of larger growth." and Enginer, under data of Feb 6th, says:

The news of Senator Seward's re-election arrived here at half past one, and created a sensation of enthusisatic pleasure among his friends, of whom no man in this capital pussesses a wider circle. This is one of the more immediate fruits of the repudiation of the Missouri Compromise, and brings more terror to the souls of the demagogues who devised and carried through that outrage, than any one seent which thus produced. It is a very deep mark, upon that movement, of public scorn, which they have been careful to rear to their memories while ye, living. Animadvansion upon Theysymbor.—The Albany correspondent of the N Y. Econing Fast anys of the Silver Grey defeat in the Senatorial election—"Meantime the Silver Gray leaders have been as cowardly as their antagonists have been bold. The giants of conservatism are like all giants, weak in the knees. They have, besides, exhausted themselves in holding, the Union together. Ganager (whom same one has likened to Turreydrop,) is great on deportment, but had at any real service. Ho may strike an attitude occasionally, but it is the only blow which he is capable of. The others are of the same kind, and seem to regard themselves as precious porcelain, to high prices to expose their naily to a shock with common clay. If the world takes them at their word and puts them on the shelf, they must not complain."

Congravelations.—We learn that, on Tuesday night, a number of personal and political friends of Hop. W. H. Soward, who, recently was re-elected, by the Legislature of New York, a Sensitor of the United States called at his renis of Milwaukee, a call we hope that will be intonce, to pay their respects to him; or in the seattily responded by all. BRICE-MAKER WARTED,—It is matter of some surprise, that no person qualified to embark in such an enterprise has yet made arrangements to engage in the brick-making business in Fox Lake.
